

AI Language & Integration Assistant

COMPLETED PRACTICAL EXAMPLE

LLCIS+ - Language Learning and Cultural Integration Support Project for Migrants and Refugees
Training on the Use of Artificial Intelligence

1 Scenario

Ahmed has recently arrived in Portugal. He understands basic English but knows only a few words of Portuguese. He has a job interview next week.

LEARN

INTEGRATE

BELONG

2 Define the Learning Need

What does Ahmed need to learn to succeed in his job interview?

Ahmed needs basic interview vocabulary, a simple self-introduction, ways to describe experience and availability, and practice answering common questions in A2 Portuguese.

3 Build Your Prompt

Use the structure below to create a clear AI prompt.

Role Portuguese tutor

Context New migrant; interview next week

Task Teach interview language and practise Q&A

Level A2 Portuguese; simple language

Output 10 words + 5 Q&A + short role-play

4 First Prompt

Write your first complete prompt.

Help Ahmed prepare for a job interview in Portuguese. Give him useful words, common interview questions and simple model answers.

5 What Did the AI Produce?

Ask the AI to create:

- ☒ essential vocabulary
- ☒ 5 interview questions
- ☒ simple model answers
- ☒ a short interview simulation

Main points / notes

Vocabulary, 5 Q&A, model answers and a role-play were created. Some language was too difficult.

6 Improve the Prompt

What needs to be clearer, simpler or more specific?

Specify A2 level, short sentences, the exact number of questions, and brief English support.

7 Final Prompt

Write the improved final version.

You are a Portuguese tutor. Ahmed is a new migrant with A2 Portuguese and a job interview next week. Teach 10 essential words, give 5 interview questions with simple model answers, then create a short role-play. Use short sentences and brief English support.

8 Short Reflection

Was the response appropriate for Ahmed's level? Why?

Yes - simple A2 language.

Was it useful for a real-life situation? Why?

Yes - practical interview use.

What did you improve in the final prompt?

Level, clarity and output.

Remember

- ☒ Use simple language.
- ☒ Protect personal data.
- ☒ Verify important information.
