

JEAD CONTRIBUTION TO THE QUALITY CONTROL REPORT

LTTA3 – Portugal | Guimarães | 15–18 September 2026

Host organisation	JEAD – Associação Digi-Cultural e Recreativa Jovens na Europa
Quality Control Team representative	Anabela
Mobility	LTTA3 – Portugal
Main theme	Artificial Intelligence

1. Purpose

This document presents JEAD's contribution to the Quality Control Team during LTTA3 in Portugal. It summarises the work prepared and implemented by JEAD for the mobility, records relevant observations, and provides structured input for the international quality-control follow-up coordinated within the LLCIS+ partnership.

2. Work prepared by JEAD for LTTA3

- Organisation and hosting of LTTA3 in Guimarães.
- Training on digital tools in education and their application to new learning methodologies.
- Digital literacy workshop.
- Training on effective use of social media platforms, content creation and digital marketing strategies.
- Review of transferred digital activities and events.
- Training on the use of Artificial Intelligence.
- Discussion and preparation related to the short film for the final activity.
- Workshop on AI applications used in short-film creation.
- Meeting/visit connected with migrants and refugees who have set up a business and are starting a new life.
- Seminar on Artificial Intelligence and other digital technologies to improve learning, evaluation and student support.
- Training on programming activities using AI for personalised learning, digital tools for teaching and curriculum adaptation.
- Study visit to Associação África Minha focusing on educational, language-learning and social support for migrants and refugees.

3. Materials and outputs

Activity / area	Material / output	Status
Digital tools training	Trainer Guide + presentation	Completed

Activity / area	Material / output	Status
Digital Literacy Workshop	Presentation + practical worksheets/resources	Completed
Social Media & Digital Marketing	Training content + practical activity	Prepared
Artificial Intelligence Training	Presentation + practical activities	Prepared
AI-supported Short Film Workshop	Presentation + demonstration/video resources	Prepared
AI and Digital Technologies Seminar	Presentation	Prepared
AI for Personalised Learning	Training material	Prepared
Study visit / migrant support	Observation and reflection sheet	Prepared

4. Relevance to LLCIS+ objectives

The activities prepared by JEAD combine digital competence development with language learning, social inclusion and practical support for migrants and refugees. The LTTA3 programme is designed to explore how digital tools and Artificial Intelligence can support adult educators, improve access to learning and information, and contribute to more inclusive and personalised approaches.

5. Study visit – Associação África Minha

The original agenda included a visit to courses attended by migrant students. Due to the September calendar period, regular courses are not yet running. The activity is therefore adapted into a study visit to Associação África Minha, where partners can learn about the educational, language-learning and social support activities normally provided to migrants and their families. This adaptation preserves the original educational and integration objectives of the activity.

6. Quality-control observations

Area	Observations / evidence
Implementation of planned activities	
Participant involvement	
Relevance to the target group	
Quality of materials	
Transferability of practices	

Area	Observations / evidence
Challenges / adaptations	

7. Points for discussion by the Quality Control Team

- Progress of each partner since LTTA2 in Kavala.
- Activities and outputs completed or still pending.
- Quality and relevance of the activities implemented during LTTA3.
- Good practices identified during the study visit and project activities.
- Necessary adaptations or improvements.
- Priorities and responsibilities before the next project meeting / LTTA.

8. Recommendations and next steps

To be completed during the Quality Control Team discussion, taking into account the contributions of all partners and the decisions agreed during LTTA3.

9. Quality Control Team

Partner	Representative
P1 – Kuşadası Halk Eğitimi Merkezi, Türkiye	Nazan
P2 – SAEK Kavala, Greece	Kalliopi
P3 – JEAD, Portugal	Anabela
